Aruba is one of my favorite islands

St. Lucia is known for the twin pitons

Bahama - Beautiful turquoise waters

CSS Transform and Transitions

Two of the more exciting features of CSS3 is CSS Transitions and CSS Transform to design animation in your website. When you curser over the pictures on the left, the picture will turn and become in focus (larger).

Sprite

Sprite image sheets are used to create animated objects from static pictures.

Widgets

Move your curser around Maukie and she'll try to grab your curser. Pet Maukie and she'll purr or touch her face and she meows.

Get Widget

CSS Animation

CSS animation can be used instead of Flash. CSS animation keyframes is not supported by Explorer
